# 5th Grade Newsletter

## What's Happening In Our Classrooms??

### Classroom

We are having a great time with Officer Daniel and the DARE program. As a fifth grade we meet with one day a week for ten weeks. We are also working on our field trip to the School of Economics. Armstrong, Brown, Cockrum, and Jones attend on October 7th, with Hagerty, Russell and Tate finishing up on October 8th.

### Reading and Writing:

Most classes have started literary groups and are working to include our reading and writing skills in our daily lives.

### Spelling:

We will have spelling and a test every week. The lists are sent home in the communication folders and can also be found online on the OUE page.

### Math

The new math series has us all working hard and learning a lot. Classes have finished up the first chapter and have started whole number division in chapter 2.

### Social Studies

In Social Studies, we are studying the economy of the United States during early American immigration. We end our study with a field trip to the School of Economics.

### Science

In Science, we are beginning the study of vertebrates and how to classify them.

## Calendar

October 4: Picture Retake Day
