

January Newsletter

Well here we are in January starting 2018! I would like to wish everyone a Happy New Year! Here is what we have going on this month.

First, we will continue to have two spelling tests a week, on Wednesday and Friday. We will have a pretest that will not count for a grade unless all words are correct. If all words are correct then that grade will be used on the Friday test.

In Math we will work on Adding and subtracting fractions and mixed numbers. It would be a good idea to practice multiplication facts at home. We are a little rusty.

In writing we are working on opinion and writing opinion papers. We are starting on something new we will have a monthly reading challenge instead of reading minutes! Each student will set a goal to read a certain amount of pages each month.

In Social Studies we will Study explorers. . In science we will study weather and the water cycle.

Let's have a great 2018!!
