

Kemel's Kennel News

September

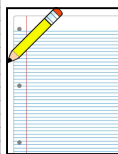

Reading: We have been working on beginning of the year assessments. Once we are done, I will begin forming reading groups, and books will start to come home.

Spelling: We have began practicing what spelling will look like with simple beginning sound patterns. Please practice the review words and sounds that come home. A spelling choice board is attached to the packet that comes home at the beginning of the week. Choose activities to do with your child to help learn the "phonics focus" You **do not** need to send the spelling work back in to school.

Math: We have been working on addition from 1-10 and different strategies that can be used to solve, as well as 2D and 3D shapes. Be sure to practice writing numbers 1-120, as well as fluency for addition facts.

Writing: We have been focusing on getting our thoughts down, and making a correct sentence using capital letters and punctuation. We recently began working on making list, and discussing that there are many, many different types of writing, such as: notes, cards, lists, letters, poems, books, recipes, and e-mails. We will be focusing on those types for quite a while.

September Dates

- * September 22-Early Release/Homecoming
- * September 15- Money for zoo field trip is due
- * September 19- Club Choice Fundraiser ends
- * September 29- No School (teacher professional development)

Note from Mrs. Kemel

Please be sure you are checking your child's folder each night and talking with them about how their day went, and looking at what papers they have.

September Birthdays

September 8- Michael
September 21-Ava
September 26- Mrs. Kemel

Content: We have been discussing what being a scientist means...we are ALL scientist! Next we will begin researching plants, and the life cycles, uses, and need for plants. We will focus on apples and pumpkins.
