

# The Vochatzer Gang's Newsletter

MAY

HAVE A WONDERFUL SUMMER!!

## Dates To Remember

**May 4 - Breakfast with Moms 7am**

**May 5 - Breakfast with Dads 7am**

**May 10 - Bulldog Bonanza - 11:25-1:45**

**May 11 - Rain Date for Bulldog Bonanza**

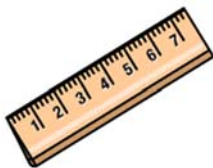

**May 17 - Early Release / Last Day of School**

## Content

We have been learning about the water cycle, how cloud form and the different types (formations) of clouds. We will be discussing weather patterns such as; rain, sleet, hail, snow, wind, tornados, thunderstorms, and hurricanes. Due to the March 6<sup>th</sup> tornado, I will not focus too much on the tornados due to anxiety. We will briefly discuss how they form and how to be safe.

## Math

We have been working with standard and non-standard units of measure. We are currently working with rulers and how to measure using inches.

Keep practicing with addition and subtraction up to 20 to be able to “pop the answers off our tongue”. This will help prepare your child for second grade!!!

## Writing Activities

During our reading activities, we have focused on Fairy Tales. The stories we have read in class are based on old tales with a new spin. For example, “The Three Pigs and the Big Bad Wolf” is now rewritten as “The Three Little Aliens and the Big Bad Robot.” The students have the challenge of writing their own Fairy Tales if they choose. Some are continuing to work on their Opinion pieces as well. RSPC (revise, spelling, punctuation and capitalize) is being revisited for editing and publishing of our own stories.
