OMS Students, Families, and Staff,

The OMS EXCEL program is providing tutoring three days a week for students who are experiencing learning loss and also need concepts retaught to them. This program continues to be a great support for our students. Students are getting the benefit of working with their teachers in a small group setting. Student success and mastery of skills and concepts are a top priority of our staff. Teachers have been developing plans for students who need a work day to get caught up on work. During a “work day” students work in the Recovery Room, and teachers check-in with students during their plan time. We appreciate all of our families who are diligently checking SIS and helping encourage their student to complete and turn in work. It truly takes all of us (students, families, teachers and staff) to ensure our students are on the path of success!

This past week the OMS staff took an evening for team bonding. Our assignment was painting a Bulldog to display at OMS. We have some talented artists in our building, and a few of us need some improvement! The students voted on the most talented artist and the artist who needs the most improvement! The students enjoyed trying to discover who painted which piece. It was fun to see and hear the buzz of excitement from our students! Mr. Baumann won the most talented artist! #WasThataBulldogOrAWalrus
